

Gypsy Winds

Oh! My lovely gypsy!
you are my heaven
A colorful ray
In this murky and sad world
Oh! My lovely gypsy
leave the trail of your scent
to guide me, to find you
oh! my gypsy, my gypsy
let the song play
I need to dance
just this song
And I know I'll say one more,
one more, one more

Oh! my baby Gypsy
I want to shout! I need...
Lend me your body
So I can get warm
I was much time in the dark
it's always cold in the dark
Lend me your body
There are fires inside you
that warms me, I fall asleep
I need sleep, need sleep
Treat me with your lap...

oh! my little gypsy
is that I need sleep ...
Give me your dreams as a gift
oh baby! a dream, only one...
and I know I'll say one more,
one more, one more

Let the trail of your scent
guide me to this new song
I do for you, just for you
Oh my gypsy, lend me
the fire of your body
for me not get lost
in the shades of the path
oh my baby Gypsy
do not be afraid
I'm not that bad!
You make things shine
I feel so much life
when you make me shine ...
and I know I'll say one more,
one more, one more

ah! my baby Gypsy
one more, one more
ahhhh !!!!!
